

索梓涵

19800337263

suo.zihan@foxmail.com

zihansuo.github.io

毕业时间：2027年6月

教育背景

清华大学、南加州大学 数据科学与传播双硕士	2024.09 至 2027.06
主要课程：机器学习、预测分析、社会计算、社会网络分析、定量研究方法	
中国人民大学 传播学学士	2020.09 至 2024.06
巴黎政治学院 本科交换，交换期GPA 4.00/4.00	2023.01 至 2023.06

实习经历

微软亚太研发集团 产品运营实习生（集团传播团队） 北京	2025.02 至 2025.05
1、独立负责集团内部SharePoint站点运营，月更新20余篇，月均访问量提升30%；从代码层重构Newsletter推送与页面更新流程，沉淀排版标准与组件库，纳入《APRD内容运营手册》供其他团队复用。	
2、每日跟踪行业动态与员工社区舆情，从分散信源中筛选核实并结构化沉淀，输出20余份监测报告，支撑集团沟通决策。	
3、作为核心成员统筹微软50周年大中华区庆典（7城、3500余人参会），承担策划、跨部门协调与20场高管及员工专访，物料上线微软全球内部官网。	
雀巢（中国）有限公司 乳品事业部市场部实习生 北京	2023.12 至 2024.03
1、支持两款新品从市场洞察到上市的全流程，开展行业调研与竞品拆解，追踪各平台内容表现，为沟通策略提供数据依据。	
2、参与N3亲体奶营销活动策划与执行，落地满赠、抽奖机制，带动淡季销量提升20%，上市三个月渠道销售额破3000万元。	
3、统筹部门每周2次项目例会，协调采购、法规、工厂、销售等30余名相关方，保障节点按期交付。	

项目经历

公开信息挖掘与结构化评估系统（CrewAI多智能体） 独立开发	2026.06 至 2026.08
1、独立设计并搭建9个Agent、四步链路的自动化研究系统，面向出海场景产出市场可行性判断、进入门槛清单与竞品分析，按目标市场自动加载政策合规与渠道知识包。	
2、针对大模型编造引用的问题，设计三层验证机制（18类代码层校验、工具调用审计、推理模型逐条审校）；模型自称已核实的10条引用，经审计日志对质全部未通过。	
海飞丝泡沫洗发水抖音GTS方案（宝洁真实brief） 主要负责人	2025.03
1、基于蝉妈妈、飞瓜、凯度数据拆解抖音洗发水价格带、品牌格局与城市层级，对比观众与成交画像，发现24至30岁人群占观众31.9%却仅贡献成交25.4%的“只看不买”断层。	
2、爬取1200条对标品类评论做情绪分析，推翻brief默认的“省时间”卖点，将策略转向情绪价值；用JTBD框架梳理6类场景痛点，产出一页纸广告战略与38秒分镜脚本，向宝洁品牌方汇报。	
欧莱雅校园公关项目 项目负责人，全国一等奖	2025.08
主导全案内容策略，梳理目标受众在小红书、微博、抖音的媒体使用路径，构建跨平台协同传播矩阵，结合短片、播客、艺术疗愈工坊与AI共创设计线上线下联动方案，预计触达200万以上大学生。	
美团业务交叉增长机会识别与运营策略设计 全国商业分析大赛	2026.04
1、基于约50万用户的单日行为日志，用因果增量、链路结构、人群分层三层分析识别跨业务引流机会；倾向得分匹配显示跨业务用户下单概率高出13.18个百分点，据此输出分时段、分地域的试点方案。	
2、负责数据工程与标签体系：完成680万行日志的业务线归因，覆盖率99.76%；设计8类用户意图标签体系，编写Prompt驱动三个大模型批量打标并全量人工复核。	
Fanzone线下应援小程序 三人团队，负责用户调研与产品设计	2024.06
通过67份有效问卷与6人深访提炼核心需求，形成两类用户画像与四大模块产品结构，完成三条主流程的Sketch原型；主动将金钱交易划出产品边界，规避应援集资的合规风险。	
硕士论文：抖音算法推荐中的金融信息不平等研究	2026 至今
采用Agent Based Testing方法，设计设备层级与IP归属的2乘2因子实验，检验推荐算法在金融信息分发上的群体差异。	

校园经历

《青年人大》（中国人民大学校团委机关报） 记者、编辑、主编	2020.09 至 2023.05
主笔特稿10余篇，最高阅读量6.6万，获年度最佳文章与年度热门文章；任主编期间负责选题策划、稿件审校与采编团队统筹。	
自游人协会（校十佳社团） 宣传部部长	2023.09 至 2024.05
运营协会公众号与视频号，公众号粉丝达9000以上，视频号粉丝从0增至2000；组织百团大战、社庆等活动，参与超100人。	

专业技能与荣誉

营销与运营：内容策略、竞品与用户洞察、社媒与内容运营、活动策划、舆情监测、蝉妈妈与飞瓜等抖音数据工具
AI与数据：Multi-Agent编排（CrewAI、LangGraph）、Prompt工程、Agent评测与Guardrail设计、LoRA微调、Python、SQL、Tableau、因果推断
产品：PRD与产品流程设计、原型设计（Sketch、Figma）、用户调研；**语言：**中文母语，英语雅思8.0
荣誉：中国大学生公共关系策划创业大赛全国一等奖（项目负责人，2025）、中国数据新闻大赛全国一等奖（组长，2022）、全国大学生新媒体创意大赛全国一等奖（组长，2023）

Zihan Suo

(+86) 198-0033-7263 suo.zihan@foxmail.com zihansuo.github.io Expected graduation: June 2027

EDUCATION

Tsinghua University and University of Southern California, Dual M.S. in Data Science and Communication	Sep 2024 to Jun 2027
Coursework: Machine Learning, Predictive Analytics, Social Computing, Social Network Analysis, Quantitative Methods	
Renmin University of China, B.A. in Communication	Sep 2020 to Jun 2024
Sciences Po Paris, Exchange Student, GPA 4.00/4.00	Jan 2023 to Jun 2023

EXPERIENCE

Microsoft Asia-Pacific R&D Group, Product Operations Intern (Group Communications), Beijing	Feb 2025 to May 2025
- Solely owned the internal SharePoint site, publishing 20+ updates per month and lifting monthly page views by 30%; rebuilt newsletter and page-update processes at the code level, producing layout standards and a component library adopted into the APRD Content Operations Manual for reuse by other teams. - Tracked industry news and employee-community sentiment daily, screening, verifying and structuring scattered sources into 20+ monitoring reports that informed group communication decisions. - Core member of the Microsoft 50th Anniversary Greater China celebration (7 cities, 3,500+ attendees), covering planning, cross-department coordination and 20 executive and employee interviews published on the global intranet.	
Nestlé (China) Ltd., Marketing Intern, Dairy Business Unit, Beijing	Dec 2023 to Mar 2024
- Supported two new product launches from market insight to release, conducting industry research and competitor teardowns and tracking platform content performance for communication strategy. - Contributed to the N3 fresh-milk campaign, executing gift-with-purchase and prize-draw conversion mechanics that lifted off-season sales by 20%, with channel sell-in above RMB 30 million within three months of launch. - Ran two project meetings per week, aligning 30+ stakeholders across procurement, regulatory, manufacturing and sales to deliver milestones on schedule.	

PROJECTS

Public-Information Sourcing and Structured Assessment System (CrewAI Multi-Agent), Solo build	Jun 2026 to Aug 2026
- Independently designed and built a 9-agent, four-step automated research system for overseas expansion, producing market feasibility verdicts, entry-barrier checklists and competitor analysis, with policy, compliance and channel knowledge packs auto-loaded per target market. - Addressing LLM-fabricated citations, designed a three-layer verification mechanism (18 code-level checks, a tool-call audit, line-by-line review by a reasoning model); of 10 citations the model claimed as verified, none passed the audit log.	
Head and Shoulders Foam Shampoo Douyin GTS Proposal (live Procter and Gamble brief), Project lead	Mar 2025
- Ran category and competitor analysis on Chan Mama, Feigua and Kantar data covering price bands, brand landscape and city tiers; comparing viewer and purchaser profiles exposed a gap: 24 to 30 year-olds were 31.9% of viewers but only 25.4% of buyers. - Analyzed 1,200 reviews from a benchmark category and overturned the brief's assumed "saves time" selling point, shifting strategy to emotional value; mapped six scenario-based pain points with JTBD and delivered a one-page advertising strategy and a 38-second shot script, presented to the brand team.	
L'Oréal Campus PR Campaign, Project lead, National First Prize	Aug 2025
Led end-to-end content strategy, mapping audience media journeys across Xiaohongshu, Weibo and Douyin into a cross-platform matrix; combined short films, podcasts, art-therapy workshops and AI co-creation into an online-offline campaign projected to reach 2 million+ students.	
Meituan Cross-Business Growth Opportunity Identification and Operating Strategy, National Business Analytics Competition	Apr 2026
- Analyzed one day of behavioral logs from about 500,000 users through causal lift, path structure and audience segmentation to find cross-business traffic opportunities; propensity score matching showed cross-business users were 13.18 percentage points more likely to order, informing a time- and region-segmented pilot plan. - Owned data engineering and the labeling taxonomy: attributed business lines across 6.8 million log rows at 99.76% coverage; designed an 8-class user-intent taxonomy, with three LLMs batch-labeling under a prompt I wrote, followed by full manual review.	
Fanzone, an offline fan-event mini-program (3-person team), user research and product design	Jun 2024
Distilled core needs from 67 valid survey responses and 6 in-depth interviews into two user personas and a four-module product structure, with annotated Sketch prototypes for three primary flows; deliberately kept money transactions outside the product boundary to avoid fundraising compliance risk.	
Master's Thesis: Financial Information Inequality in Douyin's Recommendation Algorithm	2026 to present
Uses Agent Based Testing with a 2 by 2 factorial design (device tier and IP location) to test group differences in how the recommendation algorithm distributes financial information.	

CAMPUS EXPERIENCE

Youth RUC (Renmin University Youth League Committee Newspaper), Reporter, Editor, Editor-in-Chief	Sep 2020 to May 2023
Authored 10+ feature articles, the most-read reaching 66,000 views, and won the annual best article and annual hot-topic article awards; as Editor-in-Chief led topic planning, copy review and the editorial team.	
Outdoor Sports Association (Top-10 Student Society), Head of Publicity	Sep 2023 to May 2024
Ran the WeChat account (9,000+ followers) and grew the video channel from 0 to 2,000 followers; organized recruitment fairs and anniversary events with 100+ participants.	

SKILLS AND AWARDS

Marketing and Operations: Content strategy, competitor and user insight, social media and content operations, event planning, sentiment monitoring, Douyin data tools (Chan Mama, Feigua)	
AI and Data: Multi-agent orchestration (CrewAI, LangGraph), prompt engineering, agent evaluation and guardrail design, LoRA fine-tuning, Python, SQL, Tableau, causal inference	
Product: PRD and product flow design, prototyping (Sketch, Figma), user research. Languages: Native Chinese; English IELTS 8.0	
Awards: National First Prize in the China Collegiate PR Planning Competition (lead, 2025), China Data Journalism Competition (lead, 2022) and National Collegiate New Media Creativity Competition (lead, 2023)
